

INFORMATION SHEET

The Eastside Cruisers are an all makes and models car club based in Melbourne's outer-eastern suburbs. The club caters for owners of vehicles ranging from 'heat streeters', to drag cars, circuit cars, daily drivers & everything in between. It's all about getting the cars out and having fun with fellow car enthusiasts, with a friendly, easy-going atmosphere.

Our official club meetings are held on the 4th Tuesday of each month (excluding December) at the Ferntree Gully Motel in the Garfield's Function Room (1132 Burwood Hwy, FTG) at 8pm.

We hold a large variety of events to provide something of interest to everyone - from drag racing & dyno days, to drive-in movie nights, mystery runs, show 'n' shine display days, go-kart days, scenic day cruises, night time cruises, photo shoots, weekends away and Christmas parties. In addition we also attend many of the large & small annual car events & shows as a club (such as Springnats, Easternats, Performance Car Mania, etc). We also hold great social events such as trivia night's, club birthday parties, Christmas lunch etc. From time to time we also interact with other car clubs in a variety of inter-club events.

To become a member you must possess a genuine interest & passion in car related activities, fill out the required Membership form, and pay the annual membership fee. Members then receive a club key ring, Discounts from sponsors, plus newsletters every 2nd month (6 per year). At various events, members also get the chance to compete for trophies (and bragging rights!). Other benefits include organised runs, use of the club BBQ, use of a club marquee at certain major events, free meals at events such as the annual Christmas party, and access to member only events such as the annual DECA Skidpan event. Plus all the great contacts and advice that come with a club environment,. Members are eligible and encouraged to participate in any calendared club event under the club banner.

Check out our website: www.eastsidecruisers.com where you will find:
